## FAMILY FUN EQUALS HEALTH FOR LIFE

A study performed by the British Medical Journal discovered parents who are active during pregnancy and early in their child's life tend to raise more active children. That's a good reason to develop and enjoy your own family fitness program.

Children usually do not like to "exercise," so

*"Simple activities provide physical activity such as shooting hoops, playing catch, or jumping rope."*

refrain from using that term. Instead encourage them to "play". Simple activities provide physical activity such as shooting hoops, playing catch, or jumping rope. The Spearfish Recreation & Aquatic Center is a perfect place to encourage your kids to "play" and inspire the whole family to practice being fit for life. Your experience

together at the Center will enrich your relationships and set a great example for your kids to follow as grown ups.

It is recommended that adults participate in 30 to 60 minutes of aerobic activity 4-5 days a week, and children should be physically active for at least 60 minutes every day.

## HOURS OF OPERATION

The Spearfish Recreation & Aquatic Center offers fun fitness opportunities all year long! Plan to attend the Rec Center grand opening celebration October 22, 2008. Then come join in the splash party next Spring at the opening of the Aquatic Center water park.
